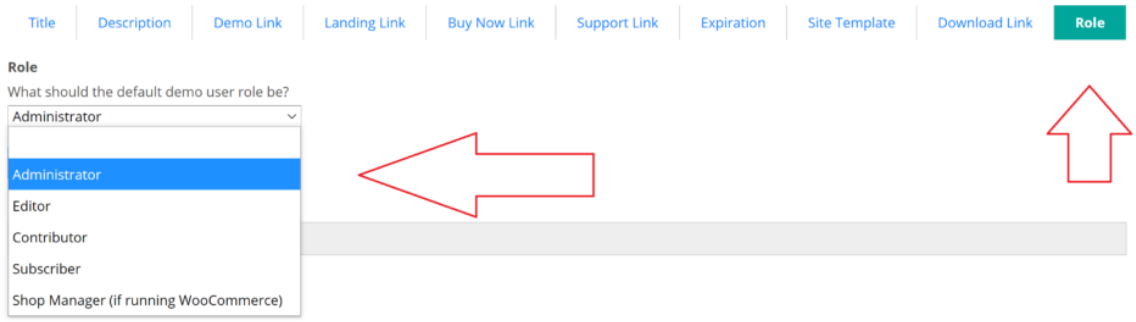
# Demo users can now have a specific role not the default admin

https://wpdemo.net/news/demo-users-can-now-have-a-specific-role-not-the-default-admin-p688

We’ve just pushed some fixes and one of the updates is that you can configure your demo template to have a user with given role.


This applies to Plugin & theme demos. With full package demos you can create users and assign them roles however you like.
