

# Catch Responsive

<https://wpdemo.net/demos/themes/catch-responsive>

Catch Responsive is an extremely flexible and customizable Responsive WordPress theme suitable for almost any kind of professional website. It is based on responsive web design where each element has been carefully configured for perfect display on all devices and platforms. It is built in HTML5, CSS3 and WordPress Theme Customizer for real time customization. It comes with a wide variety of options so you can modify layout, styling, featured content, promotion headline, featured slider, pagination, icons, menus, breadcrumb, widgets and much more, directly from theme customizer. This theme is translation ready and also currently translated in Swedish, French, Brazilian Portuguese, German, Russian, Ukrainian, Polish and Danish languages
