CMP – Coming Soon & Maintenance Plugin by NiteoThemes

https://wpdemo.net/demos/plugins/cmp-coming-soon-maintenance

CMP – Coming Soon & Maintenance plugin has all premium features you ever wished for, and it is free! It is also super fast and user friendly. You can activate your Maintenance, Coming soon(under construction) or a Landing page with a single click. Customizable in many ways – you can select a layout from predefined Themes, set custom logo, background graphics (including YouTube videos or Unsplash images), custom text or graphic content, subscribe form, social networks icons, change typography, colors, SEO, and many more.

Packed with functions like Whitelist/Blacklist to enable CMP only on specific pages, User Roles Management, custom URL Bypass, Translation strings, custom Subscribers option and many more you would not believe it is free. No ADS too, guaranteed!

TIP! Change to another CMP Theme, background or special effects in the right sidebar.

Best Features

- You can choose from 3 bundled free themes and 20+ downloadable themes – both freebies and premium – with completely different design. New CMP Theme is released every 1-2 months!
- CMP plugin works with any WordPress Theme and on all desktop and mobile devices (yes it is 100% responsive!).
- Custom Subscribe Form to collect E-mails in local database, MailChimp, MailPoet or Mailster.
- Set fullscreen background media including Videos (YouTube, custom video file), Images or Image Slider, Patterns, Color Gradients or Solid Colors with a graphic overlay.
- You can search from more than 1.000.000+ of free beautiful professional photos from most popular Unsplash source via our built-in search API (random images,

search by keyword, category, etc).
- You can set custom Logo, choose from 100 most popular Google fonts and customize Font Weight, Letter Spacing and Line Height.
- Display beautiful icons for any Social network on your website.
- Background 3D effects on all downloaded CMP Themes.
- CMP Landing page can be enabled on specific pages only (Blacklist and Whitelist) if required.
- WordPress roles to bypass CMP and display your full website for logged-in users.
- Bypass URL to preview a website for your customers.
- WPML and Polylang is fully supported to display your awesome Coming soon page in more languages.
- All strings are Fully translatable.
- Display Login Icon Button on Coming soon pages.
- Compatible with custom WordPress login URL.
- GDPR ready.
- Configurable Countdown Action – disable Coming soon / Maintenance mode, Hide counter or redirect to another website.
- Configurable SEO meta tags for search engines, editable favicon, Search Engine Visibility and No-cache Headers.
- Set response code to search engines (200 OK, 503 Maintenance).
- Redirect Mode to redirect your website to another website.
- Support for any website Analytics like Google Analytics or similar.
- Subscribe feature protected by Google Recaptcha integration.
- Insert any Custom CSS code.
