

# evolve

<https://wpdemo.net/demos/themes/evolve>

Evolve by Theme4Press is an eye-catching and minimal WordPress theme, built for web enthusiasts who like an effective, flexible, SEO-friendly great-looking websites. It's based on two solid frameworks - Twitter Bootstrap and Kirki framework, with a focus on details and usability, which progresses this theme to the next level, we are not afraid to say to a PREMIUM one. The greatness of this theme is not only in the multiple settings available and many theme options but also its flexibility, which lets you build any website of your needs - if it's just a blog, e-shop, magazine or any kind of business page. The theme key features are 2 header layouts, 13 widget areas, 3 unique sliders, up to 12 social media links, wide or boxed customizable layout, custom front page builder with up to 4 elements, up to 3 blog layouts with multiple options, full WooCommerce support, and many other useful styling options. Also with the great addition of the Demo Awesome plugin, it adds the extra 1-click starter demo data option.
