- We're dedicated to providing the most customizable, robust and well supported YouTube gallery plugin in the world!

HOW TO USE THE "FEEDS FOR YOUTUBE" PLUGIN

One of our main priorities has always been to make the plugins as easy as possible to setup and use. Once you've installed the "Feeds for YouTube" plugin there are only a few steps to get up and running:

- 1) Click the "Log in to YouTube and connect an account" button on the "Feeds for YouTube" plugin settings page. This will prompt you to log into your Google account to authorize the plugin.
- 2) Once you've connected your account, save the plugin settings.
- 3) Then simply copy and paste the [youtube-feed] shortcode onto any page, post, or widget where you want your feed to be displayed.

That's it! You can then customize the feed as needed using the settings on the plugin "Customize" page.
