GiveWP

https://wpdemo.net/demos/plugins/give

GiveWP is a donation plugin for WordPress. Built from the ground up for all your fundraising needs, GiveWP provides you with a powerful donation platform optimized for online giving.
GiveWP is free and yet is full of many advanced features to suit your needs.

Transform the way you accept online donations.
With GiveWP you can accept charitable gifts through customizable donation forms, view donation statistics and reports, manage donors, and integrate with a wide variety of third-party gateways and services.
Slick donation forms, full-featured reporting, and donor management features provide you with the tools you need to accept donations and manage your donors.

Build custom donation forms in your WordPress admin
Use the multi-step donation form template or GiveWP legacy forms
GiveWP inherits your themes styles so it integrates seamlessly out of the box
Add goals, multiple giving amounts, custom amounts, terms and conditions and more with just a couple clicks
