

# GT3 Photo & Video Gallery

<https://wpdemo.net/demos/plugins/gt3-photo-video-gallery>

## WHY GT3 PHOTO & VIDEO GALLERY?

GT3 PHOTO & VIDEO GALLERY is fully compatible with Gutenberg editor having its custom Gutenberg blocks. It's absolutely free WordPress photo gallery plugin which allows you to extend the functionality of the classic WordPress image gallery. You can easily customize the look and feel of any photo or video gallery using the global GT3 photo gallery settings panel along with the custom settings of each gallery.

Create an awesome look for your photo galleries with ease. The current version of the GT3 photo & video gallery plugin works with latest versions the Gutenberg blocks editor. You can easily use GT3 Gutenberg blocks to add image and video galleries on your website.

## ELEMENTOR COMPATIBILITY

The lite version is fully compatible with Elementor page builder. It comes with Grid and Masonry photo gallery widgets.

## DIVI COMPATIBILITY

The lite version has a custom post type "GT3 Galleries" that supports absolutely new "shortcode" system. You can easily create Grid and Masonry photo gallery and put its shortcode in the DIVI page builder. This way you can display those photo galleries on your page or post.

Stay Tuned: The new Gutenberg gallery blocks, Elementor and WPBakery compatible photo galleries will be released soon.
