Image Background Remover

https://wpdemo.net/demos/plugins/image-background-remover

Image Background Remover is a powerful WordPress plugin that enables you to effortlessly remove backgrounds from images in your WordPress media library using advanced AI technology. This plugin integrates with an external API to process images and create new versions with the background removed.

Key Features:
* AI-Powered Background Removal: Utilize state-of-the-art machine learning models to intelligently remove backgrounds
* One-Click Processing: Easily remove backgrounds from multiple images in your media library
* High-Quality Results: Supports a wide range of image types and complex scenarios
* Seamless WordPress Integration: Works directly within your WordPress media management interface
* Image Format Conversion: Convert your images to various formats including PNG, WebP, AVIF, JPEG, and JPG
* Custom Background Colors: Replace transparent backgrounds with any color of your choice
* Output Format Selection: Choose your preferred output format for processed images
* Bulk Image Processing: Convert and optimize multiple images simultaneously

This plugin uses an external service for background removal. Please refer to the service's terms of use and privacy policy: External Service Terms of Use.

Powered by advanced AI technology, our plugin utilizes state-of-the-art machine learning models to intelligently and precisely remove backgrounds from images. The AI-driven backend ensures high-quality background removal with minimal manual intervention, supporting a wide range of image types and complex scenarios.

External Service Usage

The Image Background Remover plugin relies on the external service available at https://api.rmbg.pro/remove_background to remove backgrounds from images. When you select images to process, the plugin sends the image data to this service, which performs the background removal and returns the processed images back to your WordPress site.

Please be aware of the following when using this service:
– **Data Privacy**: Ensure that you are comfortable with the service's data handling practices. Review their privacy policy and terms of service to understand how your data will be used.
– **Service Availability**: The performance and availability of the background removal feature depend on the external service. If the service is down, the background removal feature may not work as expected.
– **Image Quality**: The quality of the background removal may vary based on the complexity of the images being processed.

External Services

This plugin utilizes an external service to remove backgrounds from images. Here are the important details about the service usage:

Service Information

- Service Provider: Image Background Removal API

[WPDemo - Hosted WordPress demo sites with full admin access, private, temp, Have](#)

- Service URL: https://api.rmbg.pro/v1.0.1/remove_background
- Purpose: The service processes uploaded images to remove their backgrounds using AI technology

Data Transmission

- What is sent: Image files that you choose to process
- When: Only when you explicitly click to remove the background of an image
- Data security: Images are transmitted securely via HTTPS
- Data retention: Images are processed in real-time and are not stored permanently on the service

Terms and Privacy

- Terms of Service: https://rmbg.pro/terms-of-service
- Privacy Policy: https://rmbg.pro/privacy-policy
- Service Status: The plugin requires a working internet connection to process images

Important Notes

- The plugin offers basic image management features without requiring the background removal service
- Background removal is an optional feature that requires internet connectivity
- No personal data other than the images themselves are transmitted to the service
- You should ensure you have the rights to process any images you upload

Video Tutorial

For a comprehensive walkthrough of the Image Background Remover plugin, we have prepared a detailed video tutorial:

This video provides a step-by-step guide on:
* Installing the plugin
* Configuring settings
* Removing backgrounds from images
* Managing processed images

License & Warranty

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.
