

Materialis

<https://wpdemo.net/demos/themes/materialis>

Materialis is an incredibly flexible, multipurpose WordPress theme that can help you create an amazing website easier than ever, by drag and drop. It uses beautiful material design and it comes with a predesigned home page. It also has lots of customization options (video background, slideshow background, header content types, gradient overlays, etc) that will help you create a beautiful, unique website in no time. Materialis is responsive so it works on mobile devices out of the box.
