

# Menu Backup & Restore

<https://wpdemo.net/demos/plugins/menu-backup-restore>

Menu Backup & Restore protects your WordPress menus with automatic backups every time you make a change and easy to restore.

## Key Features

- Automatic backup of menus when they are updated
- Easy restoration of previous menu versions
- Configurable maximum number of backups to keep
- Simple and intuitive user interface
- No database modifications required
- Lightweight and fast

## How It Works

1. The plugin automatically creates a backup whenever you update a menu
2. Backups are stored in the WordPress options table
3. You can view and manage backups from the Menus page
4. Restore any previous version with a single click
5. Configure the maximum number of backups to keep in the settings

## Requirements

- WordPress 5.0 or higher
- PHP 7.2 or higher
