➜ One-Page / Single-Page Checkout Flow
➜ Quick View for Instant Product Preview
➜ Advanced Visual Checkout Form Editor
➜ Trusted Badges Displayed on Checkout
➜ Smooth AJAX-Powered Checkout Experience

🧩 Core Features (Free & Pro):

Need a faster, smoother way to boost WooCommerce sales? Plugincy's WooCommerce One Page Quick Checkout combines popup checkout, direct checkout, one-page checkout, and product quick view—all in one powerful plugin designed to simplify the buying experience and reduce cart abandonment. Take a look at the core features:

🛒 Popup Checkout:

Allow your customers to complete their orders without leaving the current page.

- **Popup Checkout Form**

  Allows customers to complete purchases in a stylish popup window without leaving the current page, minimizing friction and boosting conversions.

- **AJAX Checkout Experience**

  Processes all checkout actions without page reloads, delivering a fast, smooth, app like experience.

🛒 Direct Checkout:

Skip the cart and send buyers straight to checkout from any product – saving time and reducing drop-offs.

- **One-Click Direct Checkout**

  A simple way to move customers directly to checkout after clicking "Add to Cart."

- **Customizable Quick Checkout Buttons**

  Enable instant checkout buttons on product and archive pages (categories, tags) to speed up purchases. Customize their style and appearance to match your brand and boost the shopping experience.

- **Dynamic Button Behavior Customization**

  Customize button actions to redirect to cart, checkout, or enable popup checkout for a smoothly purchasing experience.

- **Direct Checkout Popup Option (Pro)**

  Allows customers to complete their purchase in a popup without navigating to a separate new page.

- **Variation Selection on shop/category/archive Page**

  Allow customers to select product variations directly from the archive page, shop page or product category – enabling instant checkout for a smooth and hassle-free purchasing experience.

- **Hide "Select Option" Button for Variations (Pro)**

  Simplify your product listings by removing the default "Select Option" button for variable products. This improves the user experience and encourages quicker purchasing decisions.

⬜ One Page / Single Page Checkout:

Provide customers with a complete, all-in-one checkout page – everything they need to edit, and place their order without navigating away.

- **One Page Checkout for All Products**

  Turn any product into a complete one-page checkout flow, allowing customers to purchase without extra steps or page transitions.

- **One page Multi product checkout**

  Allow customers to purchase multiple products from a single page using a fast, simplified checkout process that boosts conversions. Available Layout Options:

    - Product Table
    - Product List
    - Single Product
    - Product Slider
    - Product Accordion
    - Tab Layout
    - Pricing Table

⬜ Product Quick View Popup:

Let customers preview product details instantly in a sleek popup – no need to leave the page. Keep customers focused and speed up the process to purchase with a smooth, modern preview experience. Enhance shopping flow and boost engagement with these powerful features:

- Customizable text, icons, and button appearance
- Full control over popup content
- Keyboard shortcut support
- Social sharing, product attributes, and gallery view (Pro)
- Mobile-optimized design (Pro)
- Adjustable popup size and animation effects (Pro)
- Built-in analytics to track interactions (Pro)

🛠️ Additional Features & Enhancements:

Take your WooCommerce checkout experience even further with these powerful tools and customizations. From editing to security options, these features add convenience, flexibility, and control across the shopping journey.

- **Advanced Layout & Form Management (Pro)**

  Customize your checkout page with an easy-to-use editor. Show or hide fields, set them as required or optional, change labels and placeholders, and design a layout that matches your store's design and user flow.

- **Customizable Checkout Form**

  Easily edit field labels, placeholder text, required status, and more to customize the checkout form for your store's needs.

- **Product Quantity Controls**

  Allow customers to adjust product quantities directly from the checkout form without navigating away.

- **Remove Items Directly on Checkout**

  Allow users to remove products instantly from the checkout page – no need to return to the cart.

[WPDemo - Hosted WordPress demo sites with full admin access, private, temp, Have](#)

- **Product Image Thumbnails**

  Show clear product images during checkout to improve visual confirmation and ensure accuracy.

- **Linked Product Titles**

  Make product names clickable on the checkout page so users can easily revisit product details if needed.

- **Slide-Out Menu Cart**

  A modern, stylish side-drawer cart that users can access from any page for improved convenience.

- **Disable WooCommerce Cart Page**

  Optionally bypass the default WooCommerce cart page to streamline the checkout process.

- **Add to Cart Management**

  Customize key elements of the add-to-cart process:

  - Button style and label text
  - Default quantity per product
  - Success messages after adding to cart
  - Quantity selector visibility on archive pages (Pro)
  - Sticky add-to-cart bar on mobile (Pro)
  - Mobile-specific design adjustments (Pro)

- **Trusted Badge on Checkout Form (Pro)**

  Boost customer confidence by displaying trust badges and security seals within the checkout form.

- **Login Enforcement (Pro)**

  Add an extra layer of protection by requiring users to log in before proceeding to checkout.

🛒 Why Use This Plugin?

Speed up checkout, reduce cart abandonment, and boost sales with one-page, popup, and direct checkout options – a flexible solution for a faster, smoother WooCommerce shopping experience.

- **Faster Checkout = More Sales**

  Let customers complete their purchase instantly – no redirects, no slow reloads. A faster process means a lower chance of cart abandonment.

- **Reduce Cart Abandonment**

  Direct checkout, one-click buy buttons, and popup checkout reduce drop-offs by keeping users focused through to payment.

- **All-in-One Checkout Page**

  Turn any product into a complete one-page checkout, helping customers stay focused and convert more easily.

- **Mobile-Friendly Shopping**

  Optimized for smartphones with fast-loading, touch-ready checkout options and popups.

- **Customizable Checkout Buttons**

Match your site's branding and add instant purchase buttons where they matter – on product, category, or tag pages.

- **Supports All Product Types**

  Works with simple, variable, making it ideal for any WooCommerce store setup.

- **Popup Checkout with AJAX-powered**

  Keep customers on the same page with AJAX-powered popup checkout that doesn't interrupt the shopping flow.

- **Quick View with Instant Purchase**

  Let users preview and buy products in seconds using a stylish quick view popup.

- **Works with Builders & Themes**

  Fully compatible with Elementor, Gutenberg, and modern WooCommerce themes.

- **Boost Conversions Without Complex Setup**

  Easy to use, powerful out-of-the-box features to upgrade your store's checkout experience with minimal effort.

- **Excellent Documentation & Support**

  We've Got Your Back Every Step of the Way.

⚙️ Usage:

1. Menu Cart Implementation

Add the cart drawer to your navigation:
[plugincy_cart]

2. Single Product Quick Checkout

Enable one-page checkout for specific products:

1. Go to **Products > Edit** for any product
2. Find the **One Page Checkout** checkbox in the product data panel
3. Check the box to enable quick checkout for this product

3. Multiple products one-page checkout with various display templates

Display products with a built-in checkout using these shortcodes:

Product Table Layout:
[plugincy_one_page_checkout product_ids="152,153,151,142 " template="product-tabs"]

Product List Layout:
[plugincy_one_page_checkout template="product-list" product_ids="12,15,18"]

Single Product Layout:
[plugincy_one_page_checkout template="product-single" product_ids="12"]

Product Slider Layout:
[plugincy_one_page_checkout template="product-slider" product_ids="12,15,18,21"]

Product Accordion Layout:
[plugincy_one_page_checkout template="product-accordion" product_ids="12,15,18"]

Product Tabs Layout:
[plugincy_one_page_checkout template="product-tabs" product_ids="12,15,18"]

Pricing Table Layout:
[plugincy_one_page_checkout template="pricing-table" product_ids="12,15,18"]
