

Orbisius Random Name Generator

<https://wpdemo.net/demos/plugins/orbisius-random-name-generator>

Orbisius Random Name Generator is a minimalistic WordPress plugin that randomly picks a name from a list.

The shortcode can be used multiple times with different keywords on the same page. It will pick a random name from the appropriate list.

The duplicates will be removed automatically (if any).

This plugin is for people who want to have a

- Random Name Generator
- Random Pet Name Generator
- Random Baby Name Generator
- Random Domain Name Generator
