

Portfolio Gallery

<https://wpdemo.net/demos/plugins/portfolio-wp>

The Portfolio Gallery is a great solution for building WordPress layouts, for example portfolio showcase, video or photo gallery, product catalog, image slider, clients or team members gallery.

GridKit Portfolio Gallery designed to to build simple portfolio galleries, but powerful enough to be used for:

- Showcasing portfolio projects
- Building multipurpose gallery layouts
- Grouping galleries into albums
- Listing product catalog items
- Building slider presentations
- Showcasing sponsors or clients logos
- Making team members presentation

GridKit Portfolio Gallery is a powerful all-in-one WordPress multipurpose plugin for building almost any kind of layouts. All gallery layouts are 100% mobile friendly. Choose one of supported layout schemes which the best meets your needs (e.g. grids, masonry, puzzle or slider) to showcase your portfolio in literally few minutes. It supports popup add-ons for portfolio content, gallery images, iFrame contents, videos or maps. Grid Kit Portfolio Gallery includes 1000+ predefined animations, effects and themes. Premium version also supports predefined templates library which helps you pick one of supported templates to get started with few clicks. Portfolio project captions, descriptions, links, hover buttons are supported. Project categorization, video or photo gallery pagination and content lazy loading improves your website's performance. Social sharing is an embedded add-on which you can turn on from your settings and let your visitors share your portfolio projects right from the gallery presentation. This is not the all, you can turn your website to eCommerce and showcase product catalogs on your website. Let customers place online product enquiries or leave product reviews. Customizations are limited in Free version, but with Premium version you'll be able to customize almost everything from settings section. And the most important one, no coding knowledge required!

And this are just top notch features implemented in Grid Kit Portfolio Gallery, there are dozen of supported features you'll definitely enjoy!
