

Responsive

<https://wpdemo.net/demos/themes/responsive>

Want to create a beautiful, SEO-optimized website with zero design & coding skills? The Responsive theme can help. Responsive is fully customizable with almost unlimited color, layout, and typography options. It is optimized for SEO with support for Schema.org microdata, fast loading speed, and responsive layout design. Responsive works with all the popular WordPress plugins, including WooCommerce. It is also fully compatible with the Elementor page builder and comes with readymade, editable website templates.
