Static Optimizer

https://wpdemo.net/demos/plugins/static-optimizer

StaticOptimizer is a static file optimization cloud service that speeds up your site by optimizing and serving (the selected) static files from your site.
The service optimizes & compresses the files automatically.
No database or files changes are performed therefore there's no risk if you want to uninstall the plugin later (… but why would you?)
If our optimization server are down (upgrade, maintenance or outage) your original files will be loaded instead.

WPDemo - Demo sites with admin access so your potential customers can try your
