

Virtue

<https://wpdemo.net/demos/themes/virtue>

The Virtue theme is extremely versatile with tons of options, easy to customize and loaded with great features. The clean, modern design is built with html5 and css3 and uses the powerful responsive framework from Bootstrap to be a fully responsive and mobile friendly. Virtue has full support for the new WordPress block editor (Gutenberg) including support for wide and fullwidth blocks. It's fully e-commerce (Woocommerce) ready with all the tools you need to design an awesome online store. The versatile design is perfect for any business, online store, portfolio, or personal site. We built Virtue with a powerful options panel where you can set things like your home layout, sliders, custom fonts, and completely customize your look without writing any CSS. You are going to love how easy it is to create using this theme. Virtue was built and designed by Kadence WP.
