Weaver Xtreme - One Theme to Design Them All. Weaver Xtreme is the orginal Options-Based WordPress theme, and it is fully Gutenberg ready. Instead of spending hours finding the right theme, with Weaver Xtreme you can create the site you want! Weaver Xtreme Version 4 is the culmination of more than 8 years of development, and the experience of tens of thousands of users. The free version of Weaver Xtreme includes features and options that are premium add-ons to other themes. No other theme gives you the complete tool set to create the perfect site of any type: blogging, business, photography, organization, CMS, anything! Start with one of the included subthemes, then use the Customizer to make your site look exactly like you want. Beginner? Advanced Designer? Anyone can create a custom site with Weaver Xtreme. Theme features include: responsive - automatic mobile style; easy full-width design; Featured Image display options; comprehensive and flexible sidebars and widget areas; Video Headers, Fixed Top Menus, context sensitive help; extensive documentation; visitor side translations for more than 20 languages; WP Multisite; supports new WP Wide and Full alignments; integrated support for Gutenberg and Page Builders like Elementor and SiteOrigin; popular plugin support, including Woocommerce.
