

# Woo Donations

<https://wpdemo.net/demos/plugins/woo-donations>

This plugin lets you accept donations in WooCommerce. Users can specify the amount they want to donate.

Donation can be shown as a product on cart and checkout page, if end user wants to change their donation amount then they can re-enter donation amount on cart or checkout page to donate.

Options to choose a non-shipping, no-taxable product for donation purpose.

After woocommerce donation plugin activation you will find the "Add Donation" field on the cart and checkout page.

Also works with WordPress Multisite installs (each blog from the network has it's own maintenance settings).

## **Using woocommerce blocks display donation form**

When using woocommerce blocks in cart or checkout page you can use Woo Donations Block to display donation form. Please [watch the video](#) for more details.

## **Multiple donation forms**

Multiple donation forms are available, allowing you to integrate donation form with multiple WooCommerce products. For additional information, Please [watch the video](#) for additional information.

## **You can use shortcodes**

```
[wdgk_donation]
```

```
[wdgk_donation product_id="123"]
```

This Shortcode displays specific product donation form. Before using this shortcode mandatory to enable Donation Product checkbox on product edit page.

## **Here is Template code**

```
<?php echo do_shortcode('[wdgk_donation]'); ?>
```

```
<?php echo do_shortcode('[wdgk_donation product_id="123"]'); ?>
```
