WooCommerce - Store Exporter

https://wpdemo.net/demos/plugins/woocommerce-exporter

Export Products, Orders, Users, Categories, Tags and other store details out of WooCommerce into Excel spreadsheets and other simple formatted files (e.g. CSV, XML, Excel 2007, XLS, etc.).

Description

Introduction - WooCommerce Export Plugin
Premium | Documentation
Export WooCommerce Products, Orders, Categories, Tags, Users and other store details into Excel spreadsheets that suit your store requirements.
Simply click Quick Export to produce concise, ready to use Excel spreadshseets.
Screen-loads of export fields, filters and options are available to customise each export type, with native export integration for 125+ WooCommerce Plugins.
This WooCommerce export Plugin maintains compatibility with the latest WooCommerce release through regular Plugin updates, we also proudly maintain compatibility with legacy releases of WooCommerce.
Supported since 2012 Store Exporter for WooCommerce is maintained by an active community of store owners and developers providing feature suggestions and feedback.
