

WP Maintenance Mode

<https://wpdemo.net/demos/plugins/wp-maintenance-mode>

Add a maintenance page to your blog that lets visitors know your blog is down for maintenance, or add a coming soon page for a new website. User with admin rights gets full access to the blog including the front end.

Activate the plugin and your blog is in maintenance-mode, works and only registered users with enough rights can see the front end. You can use a date with a countdown timer for visitor information or set a value and unit for information.

Also works with WordPress Multisite installs (each blog from the network has it's own maintenance settings).
