

WP Popups - WordPress Popup builder

<https://wpdemo.net/demos/plugins/wp-popups-lite>

WP Popups is the best popup maker for WordPress. Easy but powerful plugin with display filters, scroll triggered popups, compatible with social networks, Gravity Forms, Ninja Forms, Contact form 7, Mailpoet, Mailchimp for WP, Postmatic, etc

Description

WP Popups is the best popup maker plugin for WordPress. With the easy and intuitive template builder you will be able to create and customize your popup with just a few clicks. No coding skills needed!

Is the perfect solution to show important messages such as EU Cookie notice, increase your social followers, add call to actions, increase your mailing lists by adding a form like mailchimp or to display any other important message in a simple popup.

It's compatible with the major form plugins like :

Wp Forms (recommended)

Gravity Forms

Ninja Forms

Contact form 7

USP Forms

Infusion Soft

Jetpack

Mailpoet

Mailchimp for WP

Postmatic

Any generic form

There are multiple display filters that can be combined:

Show popup on specific pages, templates, posts, etc

Filter user from search engines

Filter users that never commented

Filter users that arrived via another page on your site

Filter users via roles

Show popup depending on referrer

Show popup to logged / non logged users

Show or not to mobile, desktop and tablet users

Show or not to bots / crawlers like Google

Show or not depending on query strings EG: utm_source
email

Show depending on post type, post template, post name, post format, post status and
post taxonomy

Show depending on page template, if page is parent, page name, page type

Available Settings

Choose from 5 different popup locations

Trigger popup after X seconds , after scrolling % of page, after scrolling X pixels

Auto hide the popup if the user scroll up

Change font color, background, borders, etc

You can also configure background opacity.

Days until popup shows again
